Timer Switch with Twilight Sensor

Art. No.: ET0012

The Timer Switch with Twilight Sensor can be operated conveniently and easily with the help of 6 different presets; no complicated programming required. Once set, the power of the connected device will be activated and deactivated by daylight and darkness automatically. Also, you can switch the device on or off via the On/Off switch to avoid unnecessarily plugging and unplugging the device.

Just Set & Go

Easily turn the dial to set up the timer to one of the 6 presets (On, 2/4/6/8 hours and Twilight). Once set, the power of the connected device will be activated and deactivated by daylight and darkness daily.

On/Off Switch

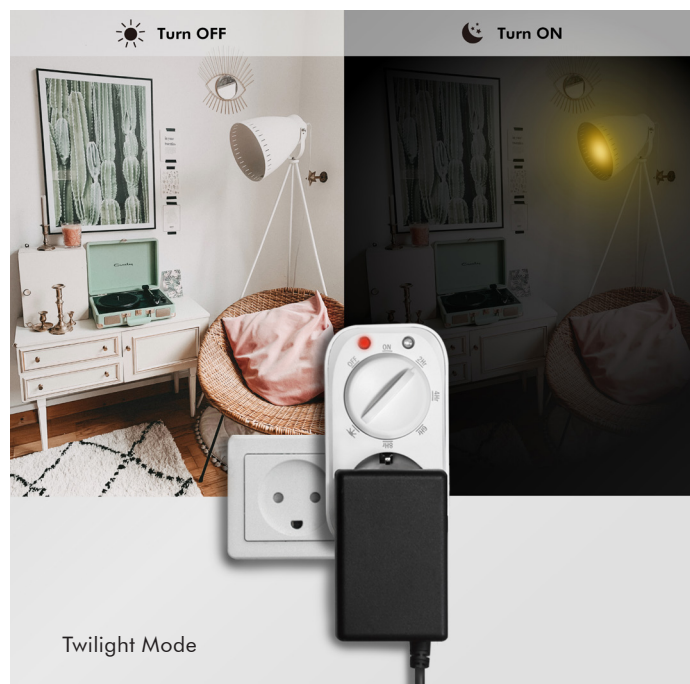

Enables you to switch the device on or off easily; avoid unnecessarily plugging and unplugging your device.

Versatile

The timer with LED indicator and twilight sensor is excellent for automating your lighting at home or at the office.

Energy-Saving

Convenient control of electronic devices helps you reduce power consumption to save costs on electricity and extend the life of your devices/appliances.
