LED-LIGHTING

LED lamps are energy-saving, long-lasting and generate little heat. With their wide spectrum of possible colours and brightness levels, they can be used in a variety of ways: whether for a cozy ambience or a brightly lit study.

WHICH LED LIGHT COLOUR IS SUITABLE FOR WHICH PURPOSE?

As the two key factors, consider the Kelvin number and the LED colour rendering index. While LED lamps are divided into three light colours (warm, neutral and cool white) using their Kelvin number, the colour rendering index (from 80 Ra) guarantees optimal colour and vivid light.

Living rooms Bedrooms	Bathrooms Multifunctional rooms	Workshop Production rooms
		
< 3300 K	3300 – 5300 K	from 5300 K
Ambience warm white	Classic neutral white	Daylight cool white

WHICH IP RATING IS IDEAL?

The protection class is clearly defined:
Code numbers determine against which influences a product is protected.
The first digit indicates the protection against solid foreign objects.
The second covers the degree of protection against water.
The higher the number, the greater the protection.

		Protected against solid foreign objects			Protected from	Protected from
		($\varnothing > 50 \text{ mm}$)	($\varnothing > 2.5 \text{ mm}$)	($\varnothing > 1.0 \text{ mm}$)	limited dust ingress (dust-protected)	total dust ingress (dust-tight)
No protection against water		IP 20	IP 30	IP 40	IP 50	IP 60
Protection against	dripping water	IP 21	IP 31	IP 41	IP 51	IP 61
	dripping water (tilted)	IP 22	IP 32	IP 42	IP 52	IP 62
	spraying water	IP 23	IP 33	IP 43	IP 53	IP 63
	splashing water	IP 24	IP 34	IP 44	IP 54	IP 64
	low-pressure water jets	IP 25	IP 35	IP 45	IP 55	IP 65
	high-pressure water jets	IP 26	IP 36	IP 46	IP 56	IP 66
	temporary immersion	IP 27	IP 37	IP 47	IP 57	IP 67
	long-term immersion	IP 28	IP 38	IP 48	IP 58	IP 68

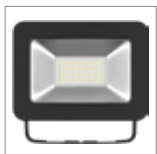

Goobay

LED Outdoor Floodlight, 10 W

with 850 lm, neutral white light (4000 K) and M16 cable gland, suitable for outdoor use (IP65)

- Very bright and functional LED outdoor light in a compact design for house entrances, garages, carports and access routes
- Quick and easy assembly thanks to the practical M16 cable gland with plug-in function for a clamping area, cable diameter of 4-10 mm
- With a large beam angle of 110 °, suitable for illuminating facades
- Stable, angled mounting bracket for wall mounting or attachment to a tripod with a rotation range of up to 180 °
- High quality and shockproof aluminum die-cast housing, transparent and tempered glass
- Energy savings of up to 80 % compared to halogen lamp floodlights
- Can also be used as a garden spotlight
